File Name Breakdown

File Name Examples

-  SAINTES-1Star-Vertical-Logo-CMYK.pdf
-  SAINTES-2Star-Vertical-Logo-CMYK-Inverse.eps
-  SAINTES-3Star-Vertical-Logo-RGB-Black.png
-  SAINTES-4Star-Vertical-Logo-CMYK-White.jpg
-  SAINTES-5Star-Vertical-Logo-CMYK.svg

Color — Variations

	1 Star	2 Stars	3 Stars	4 Stars	5 Stars
Full color The default choice for when the logo can be shown in full color against a white or light colored background.					
Inverse A full color version for use on dark backgrounds. "The SAINTES" text has been changed from SAINTES Blue to White to increase contrast for improved readability.					
Black A single-color version of the logo using only black.					
White A single-color version of the logo using only white.					

Note: A gray background has been added behind the Inverse and White logo samples — for demonstration only.

Color — Contrast examples

	0% black	20% black	40% black	60% black	80% black	100% black
Full color Readability is reduced on darker backgrounds	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES
Inverse Readability is improved on darker backgrounds	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES
Black Readability is reduced on darker backgrounds	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES
White Readability is improved on darker backgrounds	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES	 The SAINTES

SAINTES RED

CMYK: 24 98 82 16
RGB: 167 36 51
HEX: #a82433

File types and color spaces

For digital

For print

VECTOR FILES

AI

ADOBE ILLUSTRATOR

AI is a proprietary vector-based file format by Adobe Systems. It is the standard source file for your logo. Some print shops will request this file when prepping a project for print.

EPS

ENCAPSULATED POST SCRIPT

Like a PDF, an EPS can be edited with any vector graphics program. Although it's becoming outdated, some print shops with older software will still request these files so they're good to have on hand.

PDF

PORTABLE DOCUMENT FORMAT

Another editable vector-based file format. Its universal file format makes it extremely versatile. It's typically used for printing and easily sharing documents online.

SVG

SCALABLE VECTOR GRAPHIC

SVGs are great for websites or apps to keep logos and icons sharp and are infinitely scalable without pixelation.

IMAGE FILES

JPEG

JOINT PHOTOGRAPHIC EXPERTS GROUP

A popular image format that is commonly used for photographs and web graphics. Its lossy compression allows for smaller file sizes than PNG, but does not support transparent backgrounds.

PNG

PORTABLE GRAPHICS NETWORK

Another image file format that is great for web graphics and digital displays. Supporting transparent backgrounds is a key advantage over JPEG, but file sizes are typically larger.

COLOR SPACES

RGB

DIGITAL (RED, GREEN, BLUE)

The colour space for digital displays. These files are used for the digital purposes such as web graphics or photographs. Printing RGB files can result in blurry images with inaccurate colours. Use CMYK or Pantone files for printing purposes

CMYK

PRINT (CYAN, MAGENTA, YELLOW, BLACK)

CMYK stands for Cyan, Magenta, Yellow, and Black. These are the four basic colours used for printing. CMYK files are for any project that will be physically printed such as business cards or brochures. They are not for screen use.
